A woman with blonde hair, wearing a white blouse, a brown cardigan, and dark trousers, stands in a modern interior. She is looking towards a white door with a glass insert. To her left is a wooden cabinet with a green vase and a framed artwork. In the background, a child is running on a staircase, and a pair of brown boots sits on the floor. The floor is light-colored wood, and the walls are white. A red overlay on the right contains text.

BODENSEE

Bodensee – Design Series

Lake Bodensee contains some of the purest water in the world. Known to the Germans as the “tears of God,” has the purest water in the world, this surreal place has been the inspiration of many art works. Taking inspiration from this lake, the Bodensee Series makes use of flowing patterns to create a bright yet elegant look that is sure to bring life to any space.

Secure your family

To achieve the highest levels of safety and security, high quality security locks are used in the entrance door.

Both mechanical and electronic locks are available to meet your individual needs.

Electronic locks come with an optional fingerprint reader or pass code function for added security, bringing even greater protection to those you love.

Mechanical locks have break-in resistant technology that are immune to electromagnetic interference.

Fingerscan Access + Keypad Double Guarantee Top Security

Our research and development team continuously follows technological developments to meet the needs of intelligent homes, offers fingerscan access, keypad and many other intelligent unlocking methods. Fingerscan is used to replace traditional keys with compact and nice control unit. Keypad and electronic lock are integrated, offering perfect automatic unlocking. The setup is secure and simple.

Convenience— —

With one simple swipe of your finger, the door is open.

Ease— —

Internationally leading fingerscan verification technology can remember every scan and behavioral difference in scanning your fingerscan or changes in the fingerscan of your kids.

No worry about forgetting the keys any more.

Absolute security— —

A key you can never misplace.

Intelligent remote control Anytime Anywhere

We are dedicated to technologies that enhance your quality of life. Our BiSecur App will update the current status of your doors anytime, anywhere. The door can be easily opened and closed once the App is activated.

Remote control Real-time checking

After downloading the BiSecur App on mobile phone or tablet system, you can open the entrance door, garage door or gate easily with your mobile phone or tablet. The App also shows the position of your garage door and gate so that you can remotely check in real-time.

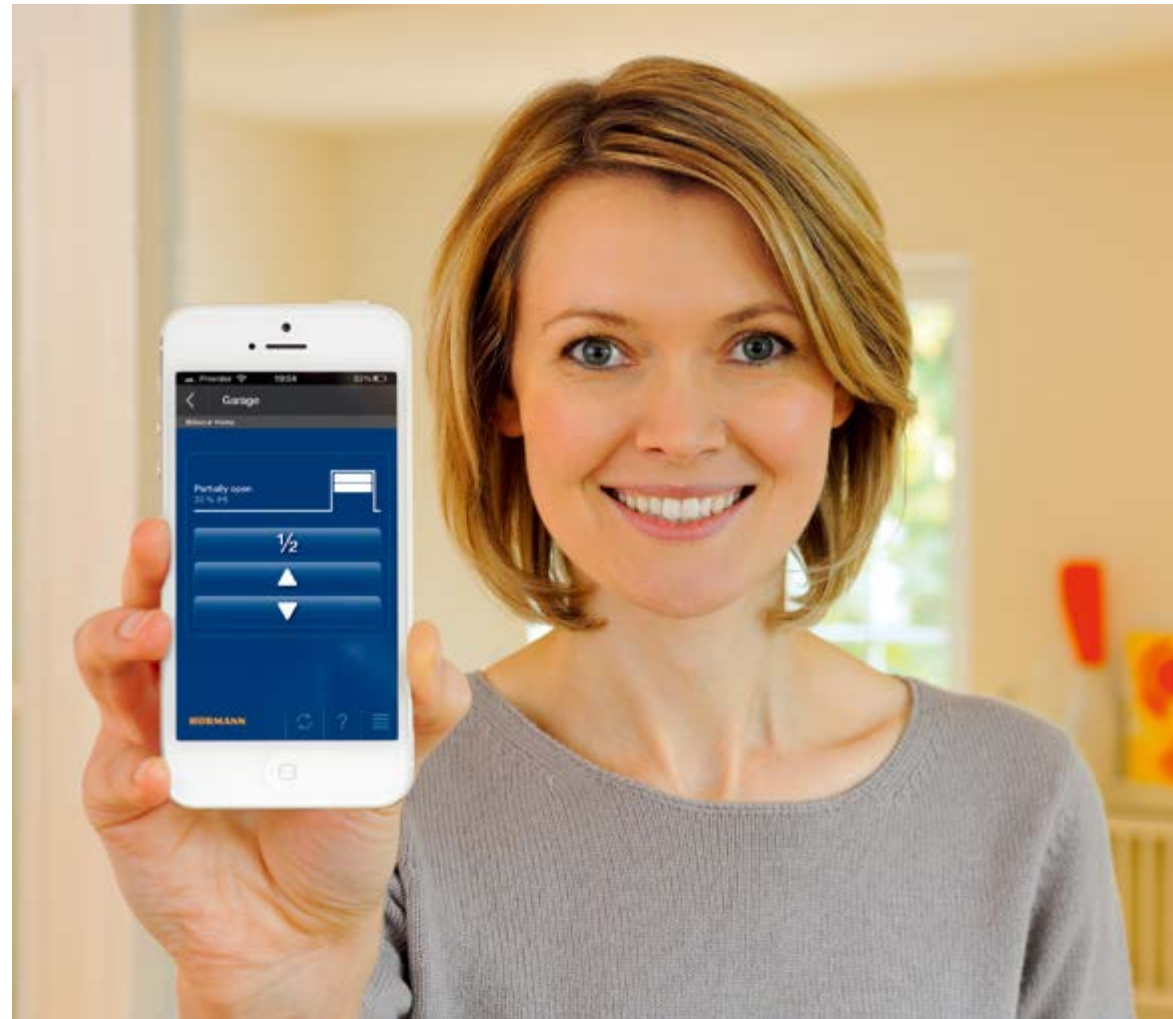

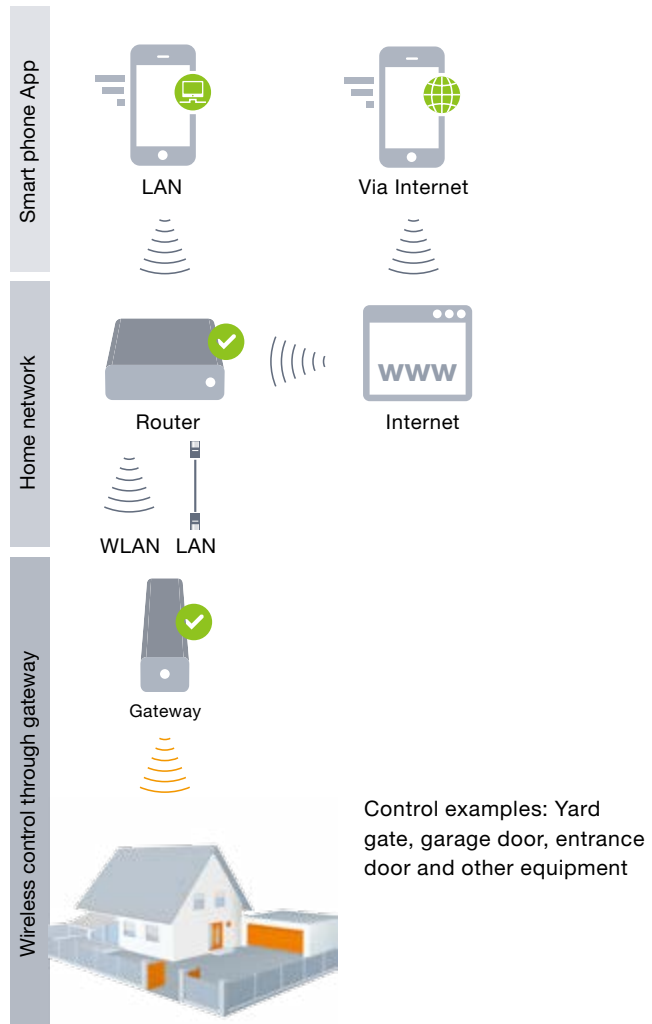

Digital Verification

Simply register your gateway and your smart phone or tablet on our BiSecur webpage for Internet powered control anywhere in the world. One-time registration is convenient while also providing the highest data security.

BiSecur

Bisecur Gateway system sync with your home network

Our expert sales team provides technical and design consultation, installation, and testing on your schedule. Our service network is established nationwide and across the Asia-Pacific region and offers professional after-sales services 24 hours a day.

We provide a complete range of solutions with all the additional support you need to install our high quality products.

Interior Door Series

Interior doors made of steel and timber are all light and durable, environmentally friendly and of excellent appearance that will bring you the best lifestyle experience.

Garage Doors

Perfectly match your personal architectural style: sectional doors with colorful coatings or Decograin surface.
